

Experience Painless Treatment Freeze promotes natural skin healing without injuring delicate skin. No other device is capable of offering measurable results with a pleasurable massage-like experience. Your clients will look forward to coming to your practice to experience painless Freeze treatments.

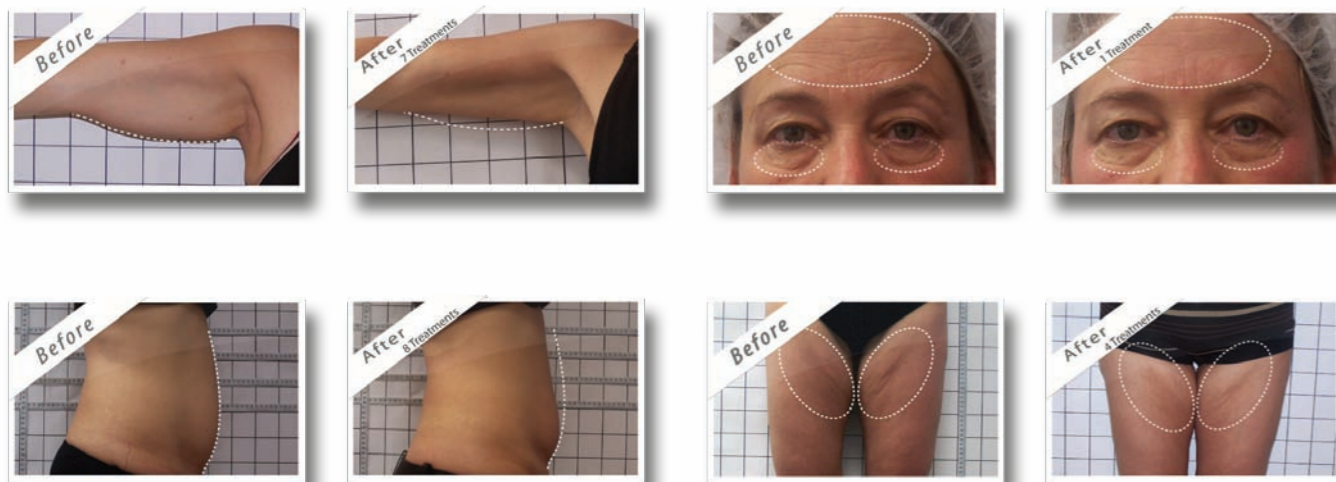

Experience Medical Grade Technology (MP)² harnesses the power of Magnetic Pulse Technology, which is clinically proven to improve dermal Micro-Circulation by encouraging the growth of new capillaries.

Experience Design Freeze's unique ergonomic (MP)² Synthesizer hand-pieces are specially designed for client and user comfort. The OctiPolar™ and DiamondPolar™ Synthesizers bring your hand down to the skin level. So you can feel and work with skin topography for a precise, accurate and interactive treatment.

Experience Confidence A simple to operate, intuitive software management system and easy to use graphic color touch screen shorten the learning curve and support controlled treatments. Freeze (MP)² synthesizers don't require special training to operate.

Experience Safety Freeze is a risk free treatment that does not harm skin. (MP)² synthesizers combine 8 energy waves into a single matrix to effectively reduce temperature peaks. The Freeze treatment is so safe that there is no need for cooling gels or sprays.

Experience Higher Profit Potential Freeze features the OctiPolar™'s 23Cm² treatment area for faster coverage than any other standard hand-piece. Treatment is up to 4 times faster, so you can overlap treated areas for better clinical results. The treatment requires no consumables, saving you time, money, and hassle for you and your clients.

Freeze results can often be seen after the first treatment, and long term results can be achieved in as few as 8 sessions.

When you purchase a product your experience should be the very best it can be on every level. To achieve these goals, we've identified and focused on perfecting what we consider to be the three main elements of a positive user experience.

Client Experience – Show Your Clients how to Gain Without Pain

(MP)² offers measurable results, often visible after the first session. Clients experience a relaxing, pleasurable and enjoyable treatment that works, and they look forward to the next session.

Product Experience - Designed to Make Your Life Easier

From intuitive, easy to follow treatment screens and menus, to ergonomic hand pieces that flow with the treatment. Each product is designed to ensure optimal results, simplify treatment and look great in your practice.

Business Experience - Working Together to Increase your (ROI)

A medi-aesthetic device is a major investment that needs to bring new clients into your practice. That's why we offer a marketing oriented package with a simple step by step advertising campaign that you can implement with ease.

Technical Specifications	
RF Frequency	1 MHz
RF output power	0-150 Watt
Number of (MP) ² synthesizers	Up to 8
Dimensions	53x42x90 cm
Input Voltage	100-240V, 50-60Hz. Max 5.5A
Magnetic Pulses Frequency	15Hz
Pulsed Magnetic Field Flux	15 Gauss

CE 0344
Not for sale in the USA

Anti Aging | Skin Tightening | Circumferential Reduction | Cellulite Reduction

Venus Freeze® is an all-in-one safe, simple and affordable machine that will satisfy your clients and increase your bottom line. Based on (MP)² Technology, Venus Freeze uses an innovative synthesis of magnetic pulse and radio frequency (RF) to deliver superior results for the face and body. Experience Freeze and let Venus challenge your expectations of an aesthetic device.

Experience Total Client Satisfaction For the first time an aesthetic device can provide real clinical results without pain. Clients will notice immediate results and enjoy the long term change in skin texture and quality.

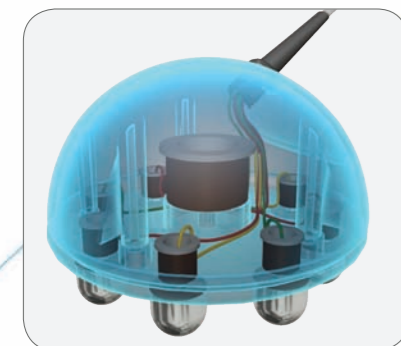

Experience Relaxation Freeze's unique ergonomic hand pieces are specially designed for your comfort. With Freeze you can work all day long without getting tired or sore. The (MP)² enables fast and homogeneous heating of the treated area to highest temperature. Maintaining this high temperature is simple and easy.

Experience an Intuitive Working Environment Freeze's unique touch screen guides you through the treatment step by step without the need for extensive training. A simple to operate, intuitive software management system shortens the learning curve and supports risk-free treatments.

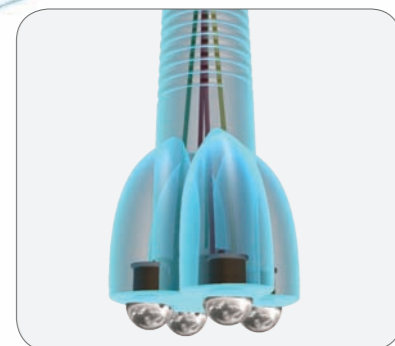

Advanced HMI (Human Machine Interface)

Experience a Revolution in Hand-piece Technology The new Venus Freeze Synthesizer hand-pieces represent a turning point in the aesthetic industry. The hand pieces are specially designed to fit comfortably in your hand and work well with your client's skin topography.

OctiPolar™

DiamondPolar™

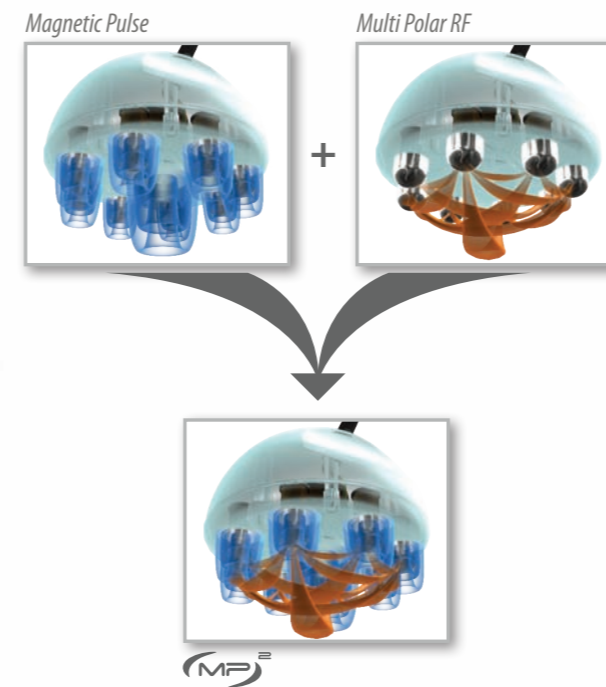

Facial ARC Enhancer™

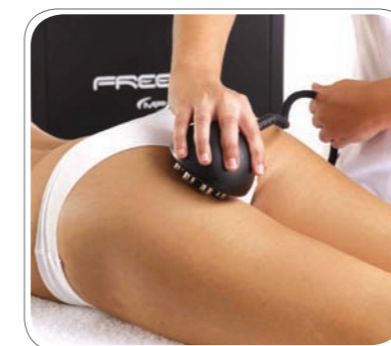

Refreshing the aesthetic industry, Venus brings practitioners the best of medical and aesthetic technologies. Combining Magnetic Pulse therapy and Multi Polar RF, Venus introduces (MP)².

Clinically proven (MP)² uses proprietary algorithms to create a highly efficient, tightly woven energy matrix. This dense energy matrix penetrates multiple layers of skin heating it from the inside out. Complete skin penetration ensures exponentially improved clinical efficacy and produces clearly visible results.

The (MP)² synthesizer hand-pieces combine RF and magnetic pulses to homogeneously raise temperatures over the entire treatment area. Uniform distribution of heat means lower overall energy, increasing safety and eliminating the need for topical cooling agents.

- No cooling required
- Simultaneous energy penetration of multiple skin layers
- Large treatment for optimal coverage and results
- Fast and homogeneous heating of treated area
- No pre-treatment preparation required

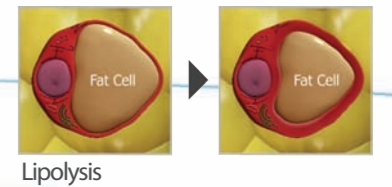

Aging skin affects two major biological phenomena:

1. Progressive reduction in the number of capillary loops. This leads to a decrease in dermal Micro-Circulation, which is responsible for supplying cells with oxygen & nutrients. This affects the normal function of dermal fibroblasts
2. Depletion of fibroblasts, which are responsible for collagen & elastin synthesis.

(MP)² Correcting the Biological Phenomena that Cause Aging

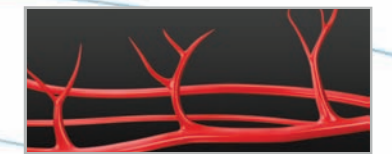

(MP)² is a unique technology that can reverse the effects of aging skin by combining Pulse Magnetic fields and RF. Pulse Magnetic fields increase FGF-2 production a growth hormone responsible for the creation of minute blood vessels and the proliferation of dermal fibroblasts. Simultaneously RF increases collagen and elastin synthesis by causing controlled thermal damage in the dermis, which stimulates the self repair mechanisms of skin tissue.

Lipolysis (MP)² Increases tissue temperature, enhancing hormone activity and breaking down triglycerides located in fat cells into glycerol and free fatty acids. The free fatty acids are released into the blood stream resulting in a significant volume reduction in fat cells. This enhanced biological process leads to measurable circumferential reduction and smoothes cellulite.

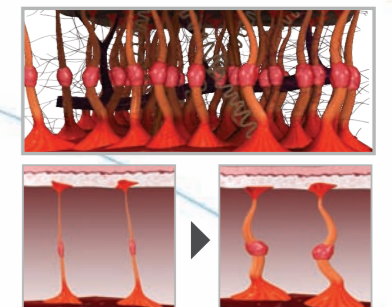

Lipolysis

Blood Circulation (MP)² improves blood flow in the treated area, enhancing overall skin condition. Improving dermal circulation supplies more vitamins, minerals and oxygen to skin cells, simultaneously removing toxins and waste materials.

Blood Circulation

Collagen and Elastic Restructuring (MP)² modifies the ultra structure of collagen fibers making them thicker and shorter, increasing skin tightness. At the same time new fibroblasts increase the number of collagen and elastin fibers improving skin tightness and elasticity resulting in wrinkle reduction.

Collagen and Elastic Restructuring
